

Page 6, line 24, before ", is" insert --(SEQ ID NO:7)--.

Please delete the current Sequence Listing pages of the specification and insert in their place the appended hard copy Sequence Listing (pages 49-53). Please amend the pages following the Sequence Listing, if necessary, to accommodate the insertion of the Sequence Listing.

In the Claims

Please amend the claims as follows:

C5 24. (Amended) The isolated polynucleotide of claim 21 comprising a polynucleotide encoding a polypeptide comprising the amino acid sequence identical to amino acids [1] 2 to 221 of SEQ ID NO:2.

C6 31. (Amended) A method for producing a polypeptide comprising [expressing from] culturing the recombinant cell of claim 30 under conditions suitable to produce the polypeptide encoded by said polynucleotide; wherein said polypeptide has the ability to stimulate the proliferation of human endothelial cells.

32. (Amended) A process for producing a polypeptide comprising:

[expressing from] culturing a recombinant cell containing the polynucleotide of claim 24 under conditions suitable to produce the polypeptide encoded by said polynucleotide; wherein said polypeptide has the ability to stimulate the proliferation of human endothelial cells.

33. (Amended) A process for producing a polypeptide comprising:

C6  
Cont  
[expressing from] culturing a recombinant cell containing the polynucleotide of claim 26 under conditions suitable to produce the polypeptide encoded by said polynucleotide; wherein said polypeptide has the ability to stimulate the proliferation of human endothelial cells.

34. (Amended) The isolated polynucleotide of claim 21 comprising the polynucleotide sequence of nucleotides 4 to 663 of SEQ ID NO:1.

35. (Amended) The isolated polynucleotide of claim 21 comprising the polynucleotide sequence of nucleotides 1 to 663 of SEQ ID NO:1.

36. (Amended) The isolated polynucleotide of claim 21 comprising the [nucleotides of] the polynucleotide sequence of SEQ ID NO:1.
